

## AL-KO 2 TONNE MECHANICAL CALIPER

The NEW AL-KO Mechanical Calliper is now available and offers a new braking element to larger trailers and towed vehicles.

Features include—

- Rated at 2,000kg for 16” wheels
- Dacromet Coated
- Stainless Steel Springs and Fittings
- Interchangeable Mounting with AL-KO Hydraulic Calliper
- Forward and Centre Pull Lever Actuation options
- Robust Sliding Head Design
- Positive Pad Location
- Non-Asbestos Brake Pads
- Low Profile Design allows easy fitment into smaller wheels (to 13” wheels)
- Most components are compatible with existing AL-KO Hydraulic Callipers.
