REMItop vario Multifunctional Skylight

The REMItop vario Multifunctional Skylight is the latest quality Remis product released onto the Australasian market by AL-KO International.

The most impressive feature of the new REMItop vario is the wind up skylight which limits the amount of space required on the roof of the caravan. This allows additional room for other appliances including air conditioning systems, aerials etc.

Safety and convenience were at the forefront of the REMItop vario designers' minds. No longer will you have to endure the unsafe act of climbing up onto a chair to push open the skylight. Just simply reach up and push the fold-away handle and out it pops from the panel, allowing you to easily wind the skylight into your preferred position.

In addition the REMItop vario Multifunctional Skylights have the following features:

- Available in 3 sizes: 400 x 400mm; 500 x 700mm & 600 x 900mm.
- Excellent ventilation qualities that exceed Australian standards.
- The skylight can be opened out by up to 60° for maximum airflow.
- Constructed with a lightweight yet sturdy plastic frame.
- Manufactured with double acrylic panels providing excellent insulation properties.
- An integrated blind system that is manufactured from a darkening pleated material, is continuously adjustable and has been tried and tested for many years.
- Close-meshed flyscreen prevents any unwanted visitors making it inside and ensures you can sleep comfortably with the skylight open.
- Mood lighting comes as standard with 600 x 900mm size only.

Available size	400 x 400mm	500 x 700mm	600 x 900mm
Weight	6.5kg	10.0kg	12.5kg
