

## Spare Parts

To get the most out of the AL-KO Powerline ride-on, a range of accessories are available.

The grass deflector enables the ride-on to be used without the catcher while the mulch kits allow the rear catcher models to be converted into an eco-friendly mulching mower.

The service stand is a unique feature of the rear catcher ride-on-range and it makes servicing easy.

A further option is the handy trailer hitch.

Headlights	Xenon 6W
Warranty	24 months

The workhorse of the AL-KO range is the T18-102HDS BIO-COMBI side discharge ride-on mower. This features a powerful 17.5 HP Briggs & Stratton motor and comes standard with the exclusive BIO-COMBI system. This allows you to change from mow to mulch without the need to leave the driver's seat. No blade change is necessary as the combination blade is specially designed to optimise mowing and mulching. It's extremely easy to use - just simply move the lever to either mulch or mow.
