pleated material design

Two different superstructure heights  
for caravans and campers

One-hand operation at every height

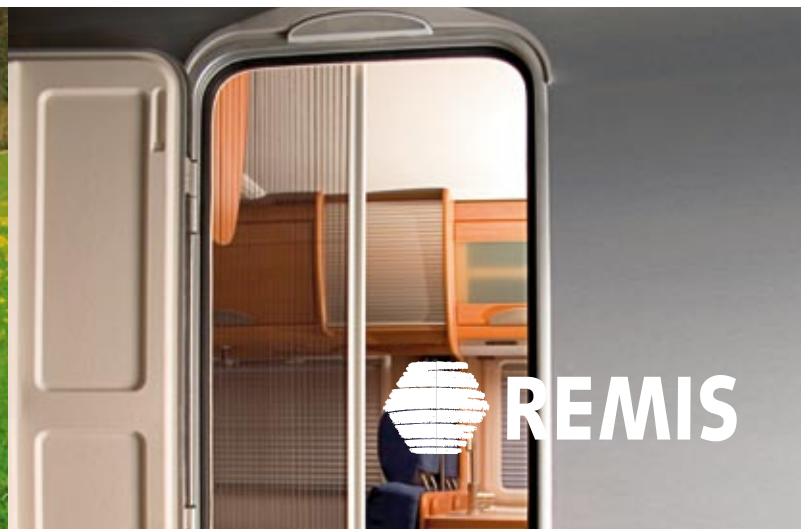

Particularly easy running

Simple installation

## REMIcare II

Pleated material door flyscreen

REMIS

# REMIcare II

## The elegant solution

REMIcare II provides highly effective insect-protection for the door in your caravan or camper in an elegant pleated design.

### No troublesome insects!

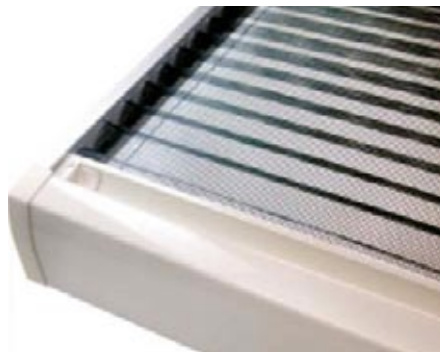

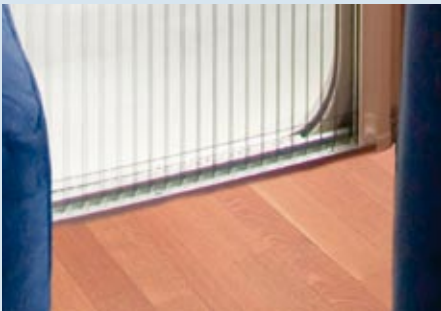

What use is it having the very best insect protection blinds on the windows if the door is wide-open? On the other hand it is nice to allow cool air to flow through the living space from time to time. With REMIcare II this need no longer be a problem. One no longer has to choose between having stuffy air or a sleepless night from mosquitoes buzzing around all the time – just open the door and close the door flyscreen. For a good night's sleep!

### Robust and insect-proof!

Particularly at the points subject to severe loading such as the door threshold, the quality of the materials and workmanship will still be playing their effective part even after years of use. In addition a cable duct can be laid in the lower door beading.

The pleated material, which is fitted with an extremely hard-wearing insect-protection net material, extends completely into

the guide rails. The lateral closures at the upper and lower beading provide additional protection against unwelcome insects getting in.

### Dimensions

Max. width: 1,150 mm

Max. height: 2,000 mm

Superstructure height – depending on the door dimensions:  
58 mm or 92 mm

### Installation

For REMIS the quality of its products comprises not only ease of operation but also simplicity of installation. Naturally as with all REMIS products the pack will contain detailed and easily understood mounting instructions.

### REMIS: For a relaxed start to the holiday!

Often it is the small details that make a holiday still more enjoyable, e.g. having insect-protection blinds in the doorway – and not just in the windows and/or roof hood. Play safe – travel with REMIS.
