

AL-KO

AL-KO WATERPUMP COVERS

Domestic and Garden Waterpumps currently on the market are intricate electrical products, that although listed as water resistant, are NOT WATERPROOF.

For this reason, any electric waterpump that is situated outside must have a cover to protect it from the elements.

AL-KO has just released a two new Waterpump covers, specially designed to fit all styles of pumps, made from watertank grade Rotomould plastic, in large and small sizes.

Standard Colours—Rivergum, Mist Green, Beige & Merino.

Solid, sturdy and built to last with a 10 Year normal wear & tear warranty.
