HYDROCONTROL PRESSURE SWITCH PRODUCT ANNOUNCEMENT

ALKO Pty Ltd would like to make you aware of a product support issue on the Hydrocontrol Pressure Switch.

Problem - Recently, a small number of Hydrocontrols have been returned as warranty items. Upon further inspection, we have found that the items in question have 'sand and particles' in the inner seal section.

Solution – Customers using the Jet 601 or Jet 802 Transfer Pump with Hydrocontrol Pressure Switch are advised to use a Pre-Filter if they are pumping from a pond/pool/well or pumping to beneath the water exit level of their tank.

ALKO WOULD ALSO LIKE TO THANK OUR CUSTOMERS FOR THEIR SUPPORT IN 2008 AND ALSO FOR THEIR UNDERSTANDING IN RELATION TO SOME RECENT SUPPLY ISSUES WITH STOCK. ALKO MANAGEMENT AND STAFF ARE WORKING TO RECTIFY THIS SITUATION AS QUICKLY AS POSSIBLE.
